

Company Profile

Booths · Stands · Pavilions

About us

- Linea Exhibitions was founded in 1978, establishing a long and dynamic presence in **exhibition organization** and **venue management**.
- Building on this deep expertise in the exhibition environment, today we specialize in the construction of exhibition stands, by delivering solutions that combine **strategic insight, functionality, and powerful brand visibility**.

in **40**
Exhibitions

150+
Stands

6.500
m²

We highlight your brand's value at every exhibition.

Our Mission

*Reliable Solutions. **Zero footprint***

To design and deliver exhibition stands and professional spaces that stand out for their **design, functionality**, and **sustainability**. We provide tailored solutions that **strengthen our clients' brands** and **competitiveness**, offering a seamless, creative, and stress-free exhibition experience — with consistency, professionalism, and respect for people and the environment.

Vision & Commitment

Meaningful innovation. Conscious design.

To establish ourselves as the top choice in the exhibition stand construction industry, combining innovation, design, and responsibility.

 **Our objective** is for every project to create a lasting positive impact — on the brand, the visitor, and the planet.

Our values

a- Authenticity

Every client is unique, which is why we work with **authenticity**, a human-centered approach, and genuine care.

e- Excellence

Excellence is our consistent point of reference — every time.

n- Novelty

Novelty is the driving force behind every exhibition stand we build.

i- Impact

Every project is not just a construction — it is an opportunity to create a positive **impact**.

Sustainability & Net Zero

Sustainability is non-negotiable – it is the foundation of everything we do.

Linea Exhibitions is **the first and only company in Greece** designing and implementing exhibition stands with a **net zero carbon footprint** since 2023.

BUILT Green - What it means in practice:

- **1.220 tons of CO₂** were offset in 2024, supporting sustainability and responsibility toward future generations.
- Use of **eco-friendly materials**, sustainable practices, and a network of partners sharing the same philosophy.
- **Certified processes** in accordance with [ISO 14064-1:2018](#), [ISO 14068-1:2023](#)

*We **fully offset the CO₂ footprint** of Linea Exhibitions and every stand we build, investing in planet-friendly materials and practices.*

Services

We listen closely, design with precision, and deliver reliably.

Exhibition Stands in Greece & Europe

We create exhibition spaces that go beyond the conventional. Each stand is a living experience, designed with passion, technical excellence, and absolute respect for the brand's identity.

Professional Spaces

We transform your company's values into inspiring environments. We design showrooms, shop-in-shop concepts, offices, and corporate spaces with a focus on design, functionality, and enhancing the experience of both visitors and employees.

Conferences & Events

We design distinctive environments that convey your story. From initial concept and visual identity to technical production, we support you throughout every phase of the event.

Exhibiting abroad

A reliable choice — No stress, no surprises.

Comprehensive One-Stop Shop Services

We handle everything—from design and construction to transportation, setup, and technical support throughout the exhibition duration.

Transparency & Continuous Updates

We keep you fully informed with detailed progress reports, so you feel confident even when you're remote.

Reliability That Builds Trust

With years of experience in international projects, we manage every detail with precision and care, allowing you to focus solely on your presence.

**Our
experience**

Centers

40

Projects

Our team, dedicated to you

Everything handled internally, with expert skill and full commitment.

At Linea Exhibitions, each project is carried out by our fully staffed in-house team, comprising:

- Civil engineer
- Interior architects
- Interior designers
- Experts in graphic design and visual curation
- Skilled builders and carpenters who guarantee superior construction quality

With comprehensive oversight at every stage, we ensure consistency, adaptability, and outstanding design in every project—eliminating intermediaries and minimizing stress for our clients.

Quality

- Electrically operated bypass valve ensures 100% engine operation
- Guests will not experience diesel particles or odor on deck
- Passive regeneration from as low as 300°C exhaust gases ensures trouble-free operation

Efficiency

- No bulky gas heater required
- Custom designs to fit any engine exhaust gas treatment strategy
- Low GP across the system
- Ease of maintenance design

Sustainability

- Protecting sensitive marine coastal ecosystem
- Reducing harmful PM10 from exhaust gases
- Minimising abrasive cleaning of the hull

Our focus — You

At Linea, the spaces we create showcase your success and tell your unique story.

We deeply understand your needs:

We research your industry, brand, and strategies even before our collaboration begins.

We offer tailored solutions:

We don't offer ready-made solutions — every project is uniquely designed, always centered on you and your vision.

We support and guide you:

From briefing to dismantling your stand, we stand by your side to ensure an exceptional collaboration experience.

Trusted by our clients

Our clients' trust is our most valuable recognition.
